

• The Vortex Series Blowers •

Fradan has taken power to the next level with the New Vortex series. The new Vortex series features a new aerodynamic sleek lightweight design. The unit comes equipped with a new blower housing and impeller design which offers more force due to increased CFM and air pressure. The series also offers larger rear and front wheel turf/saver tires making maneuvering an easy task. The Vortex Series comes equipped with lift handles on BOTH sides of the unit — making this a first in ground blower history.

ENGINE TYPE HONDA

VORTEX VPB-9HD

ENGINE HP – 9HP
ENGINE DISPLACEMENT
16.5 cubic inch (270 cc)
FUEL CAPACITY
6.4 quarts (6 L)
IGNITION
flywheel magneto
(electric ignition
system)
WEIGHT
123 lbs.
STARTER
– rope start
OIL GUARD
INCLUDED

ENGINE TYPE HONDA

VORTEX VPB-13HD

ENGINE HP – 13HP
ENGINE DISPLACEMENT
23.79 cubic inch (389cc)
FUEL CAPACITY
6.88 quarts (6.5 L)
IGNITION
flywheel magneto
(electronic ignition system)
WEIGHT
148 lbs.
STARTER – rope start
OIL GUARD
INCLUDED

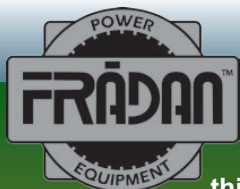

ENGINE TYPE BRIGGS & STRATTON VANGUARD

VORTEX VPB-14V

ENGINE HP-14 HP
ENGINE DISPLACEMENT
408cm3 24.9in3
FUEL CAPACITY
6.1 quarts (5.8 L)
IGNITION
Flywheel magneto
(electronic ignition system)
WEIGHT
151 lbs.
STARTER – Rope start
OIL GUARD - YES

• The Magnum Series Blowers •

Our New and Improved High power Magnum series 18 horse power Self Propelled Leaf Blower has been tested and proven by industries best professionals. While still keeping the powerful magnum design, this new blower features a 30inch wider wheel base along with dual front wheels offering more stability on hills and lifting the machine over curbs. These units come equipped with an electric starter, variable speed forward and reverse hydrostatic transmission, parking break and a skid plate to protect the undercarriage. Also, standard on this unit is the electronic air deflector which allows the user to control the direction of air flow with the option to shut off air stream. Repairing these units is a snap with no chains to adjust, 3 piece wheel hubs and taper locking Impeller hubs. The unit also offers easy access to ignition parts and easy one piece module transaxle design. This unit was designed for servicing ease.

ENGINE TYPE
BRIGGS & STRATTON VANGUARD

MAGNUM
MTSPB-18VG

ENGINE HP- 18HP

ENGINE DISPLACEMENT
34.8 cubic inch (570 cc)
